**DETAILED ACTION**

***Election/Restrictions***

1. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- I. The method of preparing a compound or composition of the general formula in Claim 1, according to Claims 1-15.
  - II. The method of preparing a compound or composition of the general formula in Claim 16, according to Claims 16-22.
  - III. The method of preparing a compound or composition of the general formula in Claim 23, according to Claims 23 and 24.
2. The inventions listed as Groups I - III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The technical feature linking the claims is a process of making a compound. However the compound cores differ between groups I and II. The core structure for Group I is the following structure:

whereas the core structure for Groups II and III is the following structure:

Between Groups II and III, the processes are different, yielding different intermediates and using different and divergent reagents. Therefore the features linking the claims do not constitute a special technical feature as defined by PCT Rule 13.2 as it does not define a contribution over the art.

Accordingly, Groups I – III are not so linked by the same or a corresponding special technical feature as to form a single general inventive concept.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 1624

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
